We used to look up into the sky to stare at the stars. We thought we shouldn't be limited that way - what if we could walk through our garden after dark, on a star-lit path? So we did a little research and found that there are glow-in-the-dark pavers! Well, you know it was on! I called Service Queen, because they did a stellar job trimming a huge Live Oak on our property and I knew I could trust them.

Within an hour or so of my outreach (thru Yelp!) they contacted me to acknowledge my ask. Then Andreas came to our house to measure the space THE SAME DAY. Andreas was professional, measured the space, and made sure he understood our vision, all while expressing genuine excitement about the project.

The next day, we sealed the deal and the Service Queen team installed the pavers a day after paver delivery. This seamless work didn't just happen - this was orchestrated by their project manager, Surge. Surge was on top of it - he texted and called; he was enthusiastic about the paver installation from the start and stayed on top of the job until it was complete. We are so delighted with his work that we asked him to have his team return to level some uneven pavers in the front and back of our property. Hey, how often can you REALLY trust a company and the people who manage the projects? Surge's team will be here Monday!

Beyond the cool factor, we wanted to walk by our raised garden beds after dark when we wanted some veggie or fruit for dinner. I've lived in this house for years and I've never gasped at how the backyard looked until I saw the paver paths at night. During the day, the pavers look tan/gray and match our existing pavers. OMG, look at the unmodified pics - amazing!

What a pleasure to work with. The whole team at Service Queen made it extremely easy from beginning to start. I've been recommending Service Queen to neighbors whoever asks cause I want them to have great driveways and walkways like mine. Thank you for the great job.

Their technology beats out any competitor coupled with continued communication. The project manager was extremely helpful throughout the process, from start to finish, and answered and revised everything to meet our expectations. The team who came to do the install were hard working and professional making sure to clean up after themselves. I wasn't 100% satisfied with one portion of the install after it was completed. The PM quickly had the team come back out at their earliest convenience to remedy the install. Now that is all done, we could not be happier with our little backyard project. Highly recommend this company for any of your project needs.

Excellent company to work with. Hired them to do my driveway and walkway through gate/side of my house.

Their estimate came in considerably cheaper than 2 others, and the quality of the work was great.

ServiceQueen is very communicative, they do what they say - they problem-solve when there are issues - highly recommend hiring this company for driveway projects! 5 stars ★★★★★

I have used service queen for several jobs. The first was taking down a palm tree in back yard. They came out the day after i called took the tree down and removed all debris. The following was a concrete slab to extend my pool patio which came out awesome. They have the best prices around for the good quality of work they give. But what makes me use them repeatedly is how fast they come out. I am an Airbnb host and i need things done immediately and this is where service queen proves their greatness!

Serge was the representative who assisted me through the project. He was knowledgeable and kept me informed with a realistic timetable.

The crew completed my driveway in 2 days

This company was a pro referral from Home Depot and they offer financing.

Pavers in driveway

Kent W

★★★★★ 3 months ago

I contracted with Service Queen to replace my old asphalt driveway with a new brick paver driveway. Both Surge and Bashar were very professional and both were extremely responsive to both texts and calls.

This was a big job, bigger than I expected. But my wife and I are very happy with the finished product. I would definitely recommend Service Queen for this type of work. Thank you, Guys!

100% recommended. Don't even bother with others. I was quoted ridiculous prices. These came in and did what they had to do, cleaned up and that's it. No crazy, no Hassle and no excuses.

I called and they came on schedule and they took on a full landscape job of our property. They did wonderful and their staff is very friendly. He had a small army own working and they finished in schedule. I was so satisfied I kept them as my regular bi weekly landscapers. Won't disappoint!

From start to finish they were responsive and professional. After getting an outrageous quote for bush removal was so pleased to find Service Queen. They had a quote to us in 2 days and started work within 3 business days. We live in Texas and this is for a rental property but felt involved every step of the way with videos and pictures. Also they were fair & honest about what needed to be done even though we were not onsite. Every concern was addressed to our liking. Our tenants commented that the crew was friendly & professional. They told us these people "want to work". Wish we could clone them for inside work that needs to be done. . Seriously highly recommend- great pricing and top notch work.

We have lived in this home in Miami since 2010 and during that time we have had numerous contractors work on improvement and repairs. During this twelve-year period, not one company has exceeded our expectations until we started to work with Service Queen. From the day-to-day hands-on oversight that Bashar extends to customers, his superior client communications so that everyone is on the same page regarding project status, the quality of the products that they plant, as well as his excellent knowledgeable hardworking team, especially Joshue and Tito, who work tirelessly to satisfy the customer.

We would, without hesitation, recommend the Service Queen team of professionals to our friends, family, and anyone interested in their extensive services. It has indeed been a pleasure to work with them. We look forward to working with them for a continued long and mutually-rewarding business partnership for all of our outdoor landscaping needs in the future.
